

Buffer zone thoughts to ponder.

Lives are truly lost in our great land, when evil works with hidden hand.

Life denied for those too small to see; no Liberty for them, like you and me.

No Pursuit of Happiness allowed for sure, some would rather kill those so pure.

For deadly violence occurs inside the clinic, and not outside as they declare.

Dismemberment and death for those who entered, and knew not where.

Deadly violence is their practiced skill, no survivors of their freedom to kill.

Deadly dismemberment by a brutal task, choice was not for them to ask.

Violence is Un-American we hear, except within the clinic where it is dear.

For deadly violence occurs inside the clinic, and not outside as they declare.

Dismemberment and death for those who entered, and knew not where.

Church and State, willing go along, with pagan votes of a deadly song.

Abortionists suffer the loss of a few, whose parents chose life for them anew.

Persuaded perhaps, just at the last minute, by a peaceful soul outside the clinic.

For deadly violence occurs inside the clinic, and not outside as they declare.

Dismemberment and death for those who entered, and knew not where.

And so a few, but very few are saved each year, by Spartan love but it must be near.

So howls with outrage and all untrue, by abortionists deprived of bloody revenue.

Lament the closeness of those who save, the closeness of those too few witnesses brave.

For deadly violence occurs inside the clinic, and not outside as they declare.

Dismemberment and death for those who entered, and knew not where.

So Church and State may hear their plea, extend the buffer zone and accept the fee.

The fee for hateful hands and hearts is a heavy one to pay but will come due one day.

For those we have refused to love, watch our every move from high above.

Those "little ones" too small to see, God gave the same rights as you and me.

Denying other's freedom to be born,

is a freedom to kill.....

The true Democrat mantra.

In Massachusetts.
