

Ignoble

There is no love for women, born or unborn, in abortion. The is no love in America's heart for innocent strangers created; then denied their life, liberty, rightful entrance to America and pursuit of happiness. Self centered "convenience" has murdered 50 million innocent Unborn Americans. America has not profited from this deliberate assault on the sanctity of life. All things sacred also came under attack and the rebellion is succeeding famously. The very fabric of a wholesome and productive society is being shredded daily before our eyes. The violent spirits are ecstatic. They will soon accomplish their goals, subjugation of the sheep, who foolishly allowed a freedom which would ensure their downfall. Deliberate refusal to protect the most innocent of human beings, especially one which you yourself created, will undermine your ability to function with true human nobility. America is suffering that loss of nobility, fatally.

**The sheep, filled with fatal adulation,
are being prepared for shearing.**
