

# Too Few Witnesses ©

24 Feb 2009

**"Trinity, if it is your will, Jesus please return in glory today, bring your justice to this world, and have mercy on us sinners."**  
**Mary, conceived without sin, please pray for us who have recourse to thee.**

## Humanity's Single Treasure

"Our tainted nature's solitary boast" as poet William Wordsworth spoke of Mary. Mary is, the perfect creation of Almighty God. Beautiful sunrises, breathtaking sunsets, and all the creativity of human energies in between, fail in comparison with Mary. Our humble attempt to describe the many qualities and attributes of Our Lady in her Litany, surely fall short of those known to Almighty God. Mary as it pleases you, we humbly ask for your continued intercession for a weak and sinful humanity.

St. Juan Diego Please pray for us.

## Nancy Pelosi

Poor Nancy Pelosi, driven by political vision and blinded by the hypocrisy of her party, has become the willing or witless witness for the father of all lies. Poor Nancy Pelosi, claiming authentic Catholicity, denies that persons begin eternity at their conception but at some other undefined point in their existence. However, Authentic Catholics believe that Mary began her eternity at her Immaculate Conception and not at some undefined point in her existence. Somehow she is able to reconcile this obvious contradiction. Poor Nancy Pelosi selects early Doctors of the Church for corroboration of her flawed position. She is fully aware of the biological and medical knowledge that they were lacking and chooses to cast it aside for political gain. She prefers to live in the past while her brothers and sisters in the womb every day are at risk of being denied their place in America. Poor Nancy Pelosi, clearly understands that prior to 1973 the deliberate termination of Unborn Americans was a criminal act. A secular court agreed to listen to an argument that would withdraw the right to life, liberty and the pursuit to happiness to Unborn Americans based upon someone else's "freedom". Lacking any specific constitutional citing in defense of the "unborn", the court decriminalized the act and denied their right to be born. The criminals won. Poor Nancy Pelosi, a stumbling

**block for Catholics who are weak in their faith and a champion for those who encourage the extermination of inconvenient yet innocent human life. Communists, nazis, and fascists, criminals all, had/have no compunction against exterminating inconvenient innocent human life, unborn or born. Her Democrat party plank will eventually extend its reach to the rest of us no doubt, when they find some hidden freedom for such in the constitution. The secular court can de-criminalize as it pleases remember. Poor Nancy Pelosi, Speaker of the House, is no speaker for the Father of life, truth and love and His son Jesus of whose Church she claims to be a witness. Jesus witness was and through His true followers is, life giving and not life extinguishing. Every one who is actively (or passively) pro-choice is a co-participant in each and every act of every abortionist, and collectively extinguishes a human life. You cannot support the deed without the guilt associated with the deed. Denying a human life its right to be born based upon someone else's freedom is the ultimate and most insidious lie! They are witnesses to be sure but for the father of all lies.**

**Poor Nancy Pelosi, pray for her and the Democrats, witnesses for lies.**

**Pray for all Catholic shepherds (who are not) who have allowed this corruption to flourish in Jesus' Church for 36 years!**

### **Lies versus life, truth and love in America**

**They represent the father of all lies.** They would probably deny this and say that they don't believe such a being exists. Believing in that perfect lie they become the most useful of tools and witnesses for evil. They say they don't know when an innocent human life begins **but that is a lie** which soothes their conscience. They say they are for women's rights **but that is a lie** as 25 million unborn American women have been denied their right to be born. They say women that have a right to choose **but that is a lie** because they deny their sisters in the womb their intrinsic rights. They say it is their body **but that is a lie** because they and their partner created a new person totally dependent upon them for its protection. They say it is not a person **but that is a lie** because each and every one of us is forced to admit our personhood began at conception. They say they are for health care for all **but that is a lie** as 50 million unborn American babies have been denied healthy care through a barbaric extermination. They say they are content denying health care to only the "inconvenient" in the womb **but that is a lie** because their objective is the same denial applied to the "inconvenient" outside the womb. They say they are personally opposed to abortion **but that is a lie** because they do nothing to oppose it! They say they are against war **but that is a lie** because they wage a deadly barbaric war against innocent life in the womb. They say they want to reach common ground **but that is a lie** because they seek the total elimination of those who dissent. They say they are for the family **but that is a lie** because their plans for children require that parents are silenced or replaced with those of an uncommon persuasion. They say they are for bi-partisanship **but that is a lie** as their actions prove the opposite. They say that they believe in 'checks and balances' **but that is a lie** because their mission is to control the three branches of government. They say they are for the rule of law **but that is a lie** because they turn a blind eye toward the invasion of millions of law-breakers. They say they will rescue America from its current dilemma **but that is a lie** because they will use the crisis to advance their objectives. They say they are truly people of conviction **but that is a lie** because they destroy the most vulnerable as a matter of "convenience". They say that America is still a pro-life nation **but that is a lie** because the law of the land allows the extermination of innocent human life. They say that they, the government, can solve all the nations' problems **but that is a lie** because a healthy government would have prevented the current dilemma. They say that they can be Catholics for Choice **but that is a lie** because they have incurred automatic excommunication by their choice. They say they are the champions of the poor **but that is a lie** because the poor they champion remain so. They say you can shield yourself from violent entertainment **but that is a lie** because you can not shield yourself from those who are immersed in it. They

say that only secret ballots for unions should be eliminated **but that is a lie** because their hidden objective will be the secret ballot of all the folks. They say that their leader will save America **but that is a lie** because he refuses to lift a finger to save Unborn Americans. They say they will restore America **but that is a lie** because they promote the worship of that which cannot save but knows only destruction. They say they are for a "free" press **but that is a lie** because they only tolerate a press that belongs to them. They say they are for a "Fairness doctrine" **but that is a lie** because they want to silence critics of their doctrine. They say that "choice" has been good for America **but that is a lie** because once the sanctity of life in the womb was destroyed, love for all that was America was destroyed. They say that it is innocent community development **but that is a lie** because development of their political base is most blatantly the obvious.

They say that all they do is legal **but that is a lie** because the Father of all life, truth and love says so.

So, **those whose father is lies**, witness against those whose Father is life, truth and love and no common ground will ever exist between them. This exact struggle between evil and good brought America into existence and with it the pursuit of lofty ideals and goals for its entire people. Sadly for America now, there are too few witnesses for the Father of life, truth and love anymore. America has lost the protection of Almighty God, relying instead on the father of lies, and the foolish of America follow those witnesses.

### **Minds and hands**

Their phylacteries may not be visible but their mind set reflects accurately what would be written on their foreheads. They are against life, against God, the source of life that created them. Their works are evil and their hands are stained in blood. Filled with contempt, they ostracize those who dissent, welcoming only those supportive of their evil goal, eliminating religious opposition.

### **Certainly not Messianic!**

The President of the United States of America, Barack Hussein Obama, has without question declared and promptly acted on his primary mission. Under the guise of hope and change he will affirm every craving of the anti-life forces tearing America apart. Under the guise of hope and change he will silence any opposition, religious or otherwise, that seeks to reverse the culture of death which has gripped America. He may be infatuated with believing he's messianic, but he is not for life but the life-less, and is absolutely the opposite of the true Messiah, Christ, who will return and bring his justice to this world. Is he the Anti-Christ? By the works, we should know. Sworn to protect the Constitution and the people of the United States he has shown that his true allegiance is to abortionists and deviants, both violent anti-life forces. Abortionists enjoy a lucrative practice of destroying innocent, defenseless human lives. Abortionists (criminals, granted amnesty by the Supreme Court) practice deadly violence and are praised for what they do by politicians seeking power. If the unborn could vote, they would have been protected; perhaps. Abortionists and those who support them deny a fundamental right to life and the immorality of their acts will spread to encompass the rest of us. The President has stated that he would not save his own grand child from abortion in order to save his daughter from a "mistake". A profoundly illuminating statement from the "leader of the free world", so called! The sanctity of the womb was violated and the deviants saw that America would accept anything immoral. Deviants came out of hiding and sought more than tolerance, they demanded total equality. Two men who can not create life or two women who also can not create life were to be the equal of one man and one woman who can. Truly life-less unions; as they had always been. Traditional marriage with all accompaniments had to be granted and the freedom the rest of us enjoyed to believe otherwise was not to be allowed. Since religious leaders appeared feckless on this issue also, politicians encouraged this deviance for political gain. Here in Massachusetts the deviants are indoctrinating school children with complete support of Beacon Hill and the Governor. The President must be proud of Massachusetts; it is probably his model for the remaining states.

### **Violent spirits will produce noble results?**

Americans rejected the most fundamental ethical principle of all human existence in 1973. It rejected that ethic which Hippocrates espoused so long ago, "do no harm" and rational human beings held it to be sacrosanct. Irrational beings have never acknowledged such an ethic and have always considered it anathema to their objectives. Deadly violence was always part of their countenance and humanity suffered terribly when ever they gained power. Is it any surprise that America has degenerated ethically since 1973! Rejecting that fundamental principle led to the distain of the ethical principles which make a nation sound. Those who govern have amassed an inexcusable national debt. Those who govern orchestrated the financial sector collapse. Those who

govern believe that increasing the national debt will solve the ethical problems destroying America. The fundamentals are corrupted and those who govern have failed. Failing innocent life we created we fail ourselves.

### Empty shells

The most dangerous politicians are the ones who would not impose their "personal" moral view on the electorate. Since their morality is subservient to the common market of any world idea to the contrary, it is devoid of any good. They are truly empty shells, the most pitiable of all human beings and having been given power to govern they end up doing evil. So the nation becomes an empty shell of its former glory as the electorate supports more and more candidates of evil.

### Amnesty

Abortionists (criminals) were granted amnesty by the Supreme Court of the United States. Religious Leaders accepted it. Otherwise 50 million exterminations would not be truth.

### Red Envelope Project
