Dr. David Gunn never backed down from his commitment to women's healthcare. With Tom Petty's "I Won't Back Down" as an anthem, he traveled over 1,000 miles a week providing abortions to women in underserved southern states. Dr. Gunn was murdered by an anti-abortion protester on March 10, 1993, but his spirit lives on today across the country. We honor, support, and defend

abortion providers on **March 10** and every day.
