

## **Village idiots**

**The Supreme Court gave serial killers the first three months!  
They took all nine months and no one stopped them.**

**Deval Patrick is giving the experimenters human stem cells.  
They will give us the "Massachusetts of Doctor Moreau".**

**When we denied life in the womb its rightful sacredness.  
We accepted that nothing else would be sacred to us.**

Many of the rest of us will also be labeled "inconvenient".**

**Even a village idiot understands this logic.  
But not in Massachusetts.**

**Massachusetts Millstones being prepared?**
